

CAFÉ CONNECTIONS

There's no need to trawl the internet looking for new ideas. We have a host of different options to offer you – all available for next working day delivery.

THERE'S MORE THAN
one way
TO WRAP A
sandwich!

Greaseproof wrap

Popular for handwrapping freshly made sandwiches, greaseproof is available in white or brown as well as generic designs such as gingham. Other materials are available if sandwiches are hot or contain sauces.

*Why not consider branding -
or just adding a sticker
with your logo on? Our
production team is
here to help.*

BOXES

Compact box suitable for square cut sandwiches.

Glassine bags

Good quality bag with film strip window that copes well with grease.

Kraft bags & inserts

These white or brown kraft bags with clear film windows are frequently chosen to promote a premium range. Use with one of a variety of inserts to hold the sandwich securely and heat seal the bag if shelf life needs to be extended.

Boards & clear bags

Lipped and flat boards are available in a variety of sizes to be teamed with a clear film bag. A good economical solution which gives excellent product view.

Trays

Can be used with a variety of bags. Great for serving toasted sandwiches or when you want to add a little garnish.

Sofa pack & bag

The sofa pack can be used as an insert for a kraft bag – or works well with the cheaper clear film option.

Double skinned hot 'n' crispy takeaway bag

Does what it says – keeps hot or toasted sandwiches hot'n'crispy for around 20 minutes.

Flexible Packaging

Here the film is already attached to the board. This pack is particularly suitable for wrapping a chunky bloomer sandwich but there are others suitable for hot snacks

Contact grill oven bag

Hygienic heat resistant bags up to 220°C for paninis and sandwiches. Even though there is no contact with the grill, the bread still receives its grilled stripes through the bag.

Sandwich paperboard wedges

Available in white or brown kraft. Single, standard, deepfill and triple sizes available.

Self-seal wedge

This brown kraft deepfill wedge with self adhesive strip will give a longer shelf life. Heat sealable wedges are not stocked as standard but can be brought in as a special order.

Recyclable plastic wedges

All our clear wedges are made from rPET – that is they contain a percentage of recycled material and are in turn recyclable. These sturdy budget priced wedges offer good product view and shelf life – and there is a dome-fronted deepfill option which stands proud of heavily filled sandwiches.

For Children

Our own generic range of colourful little wedges that take 2 dainty ¼ sandwiches. Further designs being added.
